PROFESSIONAL SUMMARY

Passionate IT undergraduate with strong interests in full-stack development, AI and DevOps. Experienced in building mobile, web, and desktop applications with a focus on scalability and usability.

EDUCATION

BSc in Information Technology (Reading) | GPA: 3.4
Rajarata University of Sri Lanka (2023 – Present)

Final Year Project: ARGUS - A Figma plugin that detects near real-time UI/UX Issues in Figma Designs.

WORK EXPERIENCE

Trainee – P&S Bakers (Pvt) Ltd (2022 - 2023)

- Worked in a professional environment and supported operational tasks
- Developed teamwork and communication skills

SKILLS

Android Development | MERN Stack | AI & ML | DevOps | QA | Problem Solving | Teamwork

PROJECTS

1. AirCheck – An AI-integrated Android app that provides diagnosis for breathing-related diseases using recordings as inputs.

    Tech Stack: Android Studio, Python, Deep learning/CNN, Audio processing

2. Cee-Weather – A MERN-based worldwide weather observation system using the OpenWeather API

    Tech Stack: MongoDB, Express.js, React, Node.js, OpenWeather API

3. SkyBook – A MERN-based Flight Ticket Reservation System

    Tech Stack: Express.js, React, Node.js, JWT authentication, Stripe

4. PetBreedAI – An AI-integrated Android app using MobileNet CNN for 37 breeds classification

    Tech Stack: Android Studio, TensorFlow Lite, MobileNet CNN

5. LuxeStay - A MERN stack Hotel Reservation System

Tech Stack: Express.js, React, Node.js, MongoDB Atlas, JWT authentication

6. Income & Expense Tracker – Desktop app with budgeting and CSV data persistence

Tech Stack: C++, Qt, CSV file handling

CERTIFICATIONS

DevOps and AI on AWS – Amazon Web Services (2026)

Introduction in DevOps – IBM (2026)

Full Stack Development – University of Moratuwa (2024)

AI & ML Bootcamp – Udemy (2025)

Prompt Engineering for ChatGPT – Vanderbilt University (2026)

Diploma in IT – ESOFT (2019)
